PROJECTS

Resume Analyzer Web App | March 2026

GitHub: [github.com/samplestudent/resume-analyzer](#)

- Built a Streamlit web app that extracts skills from resumes and compares them to job descriptions.
- Implemented PDF text extraction using pdfplumber and skill matching using Python.
- Deployed the app publicly using Streamlit Community Cloud.

Sales Data Dashboard | January 2026

- Analyzed sample sales data using Pandas and created visualizations to identify trends.
- Presented insights using Excel and Power BI dashboards.

CERTIFICATIONS

- Python for Everybody - Sample Learning Platform
- Introduction to SQL - Sample Learning Platform

EXTRA-CURRICULAR

- Member, College Coding Club - organized peer coding sessions.
- Volunteer, Annual Tech Fest - managed event logistics and student teams.
